

IGF Link 2050

Lift Controller

IGF Link 2050 controllers can operate up to 8 lifts in a group with a maximum of 254 stops and a maximum speed of 8 m/s.

IGF Link 2050 controllers are in full compliance with EN81.20 and EN81.50.

For our controllers we use exclusively EN81.20/50 complaint components with proven reliability and technical support. The core component is the Thor controller module.
